Dear Mr. Houston,

Of all the cruel and unprincipled treatments the one that deprives two invalid persons of their property without paying for same, would be one of the lowest practices, in addition to an endeavor of embroiling one of the high, hush-hush offices of our Government, in nefarious schemes.

STATINTL You have tried to arrive at a solution and believed and listened to both [REDACTED]

STATINTL The deed was signed at night of April 28-th. Since then the monthly payments were made in July, August, September and June, amounting to \$400., which together with the \$300. makes only \$700. and not \$1000. stated by Miss [REDACTED] at you, as your letter states, do believe to be a fact, contrary to truth stated by us.

STATINTL The law provides that a property bought must be paid for. Well, did [REDACTED] show you the regular receipts? Under these circumstances the CIA is very much in the case. They should not be influenced by fairy tales.

I was voting a ha¹f a century ago and my wife was in Bryn Mawr 40 years ago. We tell the truth and only the truth. My previous letters, with all the statements in them, stand and no different testimony nor equivocation should allow the CIA to participate in defending a grab from two invalids.

(Apart from the above, a friend, Albert Houston of Baltimore, died a few years ago. Was he related?)

Sincerely, I am,

18 cc
